# ATMOSPHERIC ENVIRONMENT PART A

## EXECUTIVE EDITORS

Dr P. Brimblecombe, *Norwich, U.K.*  
Dr M. Benarie, *Grenoble, France*  
Prof. R. D. Bornstein, *San Jose, CA* (with  
special responsibility for *Urban Atmosphere*)

Dr A. S. Lefohn, *Helena, MT*  
Dr P. J. Lioy, *Piscataway, NJ*  
Dr H. B. Singh, *Moffett Field, CA*

## ASSOCIATE EDITORS

Dr H. M. ApSimon, *London, U.K.*  
Prof. D. Azimi-Garakani, *Tehran, Iran*  
Prof. Dr P. J. H. Builtjes, *Delft,  
The Netherlands*  
Prof. P. K. Dasgupta, *Lubbock, TX*  
Dr D. G. Fox, *Fort Collins, CO*  
Dr J. A. Garland, *Harwell, U.K.*  
Dr D. F. Gatz, *Champaign, IL*  
Dr R. M. Harrison, *Birmingham, U.K.*  
Dr C. S. Hirtzel, *Syracuse, NY*  
Prof. Dr H. Horvath, *Wien, Austria*  
Dr J. C. R. Hunt, *Cambridge, U.K.*  
Prof. O. Hutzinger, *Bayreuth, Germany*  
Dr D. J. Jacob, *Cambridge, MA*  
Dr W. Jaeschke, *Frankfurt, Germany*  
Dr Y. Y. Jiang, *Shanghai, China*  
Prof. W. Klug, *Darmstadt, Germany*  
Dr O. Lindqvist, *Göteborg, Sweden*  
Dr A. Longhetto, *Turin, Italy*  
Prof. J. E. Lovelock, *Reading, U.K.*  
Dr E. Mészáros, *Veszprem, Hungary*

Prof. Dr Ir. F. T. M. Nieuwstadt, *Delft,  
The Netherlands*  
Dr T. Okita, *Ibaraki, Japan*  
Dr L. P. Prahm, *Roskilde, Denmark*  
Dr A. G. Robins, *Guildford, U.K.*  
Prof. V. C. Runeckles, *Vancouver, Canada*  
Dr S. E. Schwartz, *Upton, NY*  
Prof. R. S. Scorer, *London, U.K.*  
Prof. J. H. Seinfeld, *Pasadena, CA*  
Prof. M. P. Singh, *New Delhi, India*  
Dr W. G. N. Slinn, *Richland, WA*  
Dr F. B. Smith, *Bracknell, U.K.*  
Dr K. Spurný, *Grafschaft, Germany*  
Dr K. Takeuchi, *Tokyo, Japan*  
Dr D. T. Tingey, *Corvallis, OR*  
Prof. M. H. Unsworth, *Corvallis, OR*  
Dr H. van Dop, *Utrecht, The Netherlands*  
Dr P. Warneck, *Mainz, Germany*  
Dr D. M. Whelpdale, *Ontario, Canada*  
Dr D. J. Williams, *North Ryde, Australia*  
Dr W. E. Wilson, *Research Triangle Park, NC*  
Dr P. Zannetti, *Menlo Park, CA*

## ASSISTANT EDITOR

Dr J. F. Austin, *Norwich, U.K.*

## EDITOR EMERITUS

Dr J. P. Lodge Jr, *Boulder, CO*

## FORMER EXECUTIVE EDITOR

Dr D. J. Moore (1967-1989)

**Production Editor (Pergamon):** Sara Brunton

### Publishing and Advertising Offices

Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. Tel: (0865) 794141,  
Fax: (0865) 60285.

### Microform Subscriptions and Back Issues

Back issues of all previously published volumes, in both hard copy and on microform, are available direct from Pergamon Press offices.

### Subscription rates

Annual Institutional Subscription Rates 1994: North, Central and South America, U.S.\$1297.00, Rest of World, £1995.00. Associated Personal Subscription Rates are available on request for those whose institutions are library subscribers. Sterling prices exclude VAT. Non-VAT registered customers in the European Community will be charged the appropriate VAT in addition to the price listed. Prices include postage and insurance and are subject to change without notice. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A. and from the Rest of the World to: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K. Subscription rates for Japan are available on request.

Published monthly plus additional issues in January, March, April, May, June, July, September, October, November and December.

Whilst every effort is made by the Publishers and Editorial Board to see that no inaccurate or misleading data, opinion or statement appear in this Journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements herein are the sole responsibility of the contributor or advertiser concerned. Accordingly, the Publishers, the Editorial Board and Editors and their respective employees, officers and agents accept no responsibility or liability whatsoever for the consequences of any such inaccurate or misleading data, opinion or statement.

Second class postage paid at RAHWAY, NJ, and additional mailing offices. Postmaster send address corrections to Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

© 1993 Pergamon Press Ltd

## CONTENTS OF VOLUME 27A

### Number 1

- |   |     |  |
|---|-----|--|
| D. H. F. Atkins and D. S. Lee   | 1   | Indoor concentrations of ammonia and the potential contribution of humans to atmospheric budgets   |
| A.-L. Pasanen, M. Nikulin,<br>M. Tuomainen, S. Berg, P. Parikka<br>and E.-L. Hintikka | 9   | Laboratory experiments on membrane filter sampling of airborne mycotoxins produced by <i>Stachybotrys atra</i> Corda   |
| Liu Yangang   | 15  | Statistical theory of the Marshall-Palmer distribution of raindrops  |
| A. P. Altshuller  | 21  | Production of aldehydes as primary emissions and from secondary atmospheric reactions of alkenes and alkanes during the night and early morning hours                    |
| J. Collett Jr, B. Oberholzer and<br>J. Staehelin                                      | 33  | Cloud chemistry at Mt Rigi, Switzerland: dependence on drop size and relationship to precipitation chemistry   |
| G. P. J. Draaijers and J. W. Erisman  | 43  | Atmospheric sulphur deposition to forest stands: throughfall estimates compared to estimates from inference  |
| K. H. Becker, J. Bechara and<br>K. J. Brockmann                                       | 57  | Studies on the formation of $H_2O_2$ in the ozonolysis of alkenes  |
| F. van den Berg   | 63  | Measured and computed concentrations of methyl isothiocyanate in the air around fumigated fields   |
| D. Weihs and R. D. Small  | 73  | An approximate model of atmospheric plumes produced by large area fires  |
| L. Camarero and J. Catalan  | 83  | Chemistry of bulk precipitation in the central and eastern Pyrenees, northeast Spain   |
| M. S. El-Shobokshy and<br>Y. G. Al-Saedi  | 95  | The impact of the Gulf war on the Arabian environment—I. Particulate pollution and reduction of solar irradiance   |
| <i>Technical Notes</i>  |     |  |
| H. Sauren, E. Gerkema, D. Bićanić<br>and H. Jalink                                    | 109 | Real-time and <i>in situ</i> determination of ammonia concentrations in the atmosphere by means of intermodulated Stark resonant $CO_2$ laser photoacoustic spectroscopy |
| E. R. Blatchley III, C. G. Daughton<br>and J. F. Thomas                               | 113 | Evaluation of ozone-alkylpyridine reaction kinetics using spectroscopic measurements   |
| <i>Short Communications</i>   |     |  |
| D. L. Cooper, T. P. Cunningham,<br>N. L. Allan and A. McCulloch                       | 117 | Potential CFC replacements: tropospheric lifetimes of $C_3$ hydrofluorocarbons and hydrofluoroethers   |
| P. Ambus, H. Clayton,<br>J. R. M. Arah, K. A. Smith<br>and S. Christensen             | 121 | Similar $N_2O$ flux from soil measured with different chamber techniques   |

*News and Opinions*

Introduction	125
Calendar	125
Book Review (P. Brimblecombe)	127
Preparation of Papers	I

## Number 2

J. Lagrange, C. Pallares, G. Wenger and P. Lagrange	129	Electrolyte effects on aqueous atmospheric oxidation of sulphur dioxide by hydrogen peroxide
G. Sanders, K. C. Jones and J. Hamilton-Taylor	139	A simple method to assess the susceptibility of polynuclear aromatic hydrocarbons to photolytic decomposition
A. S. Lefohn, L. R. McEvoy Jr, D. T. Tingey, J. L. Sebaugh and W. E. Hogsett	145	Potential bias from non-continuous monitoring of ambient ozone concentrations for characterizing hourly and daily 7- and 12-hour average concentrations
W. González-Manteiga, J. M. Prada-Sánchez, R. Cao, I. García-Jurado, M. Febrero-Bande and T. Lucas-Domínguez	153	Time-series analysis for ambient concentrations
M. H. Conklin, R. A. Sommerfeld, S. K. Laird and J. E. Villinski	159	Sulfur dioxide reactions on ice surfaces: implications for dry deposition to snow
W. J. Massman	167	Partitioning ozone fluxes to sparse grass and soil and the inferred resistances to dry deposition
R. Keymeulen, N. Schamp and H. Van Langenhove	175	Factors affecting airborne monocyclic aromatic hydrocarbon uptake by plants
K. W. Nicholson	181	Wind tunnel experiments on the resuspension of particulate material
H. V. Andersen, M. F. Hovmand, P. Hummelshøj and N. O. Jensen	189	Measurements of ammonia flux to a spruce stand in Denmark
K. T. Valsaraj, G. J. Thoma, D. D. Reible and L. J. Thibodeaux	203	On the enrichment of hydrophobic organic compounds in fog droplets
H. Berresheim	211	Distribution of atmospheric sulphur species over various wetland regions in the southeastern U.S.A.
M. Kruse-Plass, H. M. ApSimon and B. Barker	223	A modelling study of the effect of ammonia on in-cloud oxidation and deposition of sulphur
J. N. Galloway, D. L. Savoie, W. C. Keene and J. M. Prospero	235	The temporal and spatial variability of scavenging ratios for nss sulfate, nitrate, methanesulfonate and sodium in the atmosphere over the north Atlantic Ocean

C. M. Rojas, J. Injuk, R. E. Van Grieken and R. W. Laane	251	Dry and wet deposition fluxes of Cd, Cu, Pb and Zn into the Southern Bight of the North Sea
M. Mozurkewich	261	The dissociation constant of ammonium nitrate and its dependence on temperature, relative humidity and particle size
D. A. Fisher and P. M. Midgley	271	The production and release to the atmosphere of CFCs 113, 114 and 115
<i>Technical Notes</i>		
R. G. Derwent	277	Evaluation of the chemical mechanism employed in the EMEP photochemical oxidant model
A. Pszenny, C. Fischer, A. Mendez and M. Zetwo	281	Direct comparison of cellulose and quartz fiber filters for sampling submicrometer aerosols in the marine boundary layer
<i>News and Opinions</i>		
Introduction	285	
Calendar	285	
Book Reviews (S. E. Schwartz and J. P. Lodge Jr)	287	

## Number 3

*First Ibero-American Conference on the Atmospheric Environment,  
CIAMAA91/IACAE91*

A. Trier	291	First Ibero-American Conference on the Atmospheric Environment, CIAMAA91/IACAE91, Santiago de Chile, 7-11 January 1991: an overview
H. Horvath	293	Atmospheric light absorption—a review
H. Horvath	319	Comparison of measurements of aerosol optical absorption by filter collection and a transmissometric method
L. Stowhas B. and J. C. Moyano	327	Simulation of the isotopic content of precipitation
G. J. Berri and J. Inzunza B.	335	The effect of the low-level jet on the poleward water vapour transport in the central region of South America
J. Nogués-Paegle and E. A. Collini	343	The vertical structure of rotational and divergent motions over the global tropics and subtropics
J. Vilà-Guerau de Arellano, P. G. Duynkerke, P. J. Jonker and P. J. H. Builtjes	353	An observational study on the effects of time and space averaging in photochemical models
C. M. Rojas, R. E. Van Grieken and R. W. Laane	363	Comparison of three dry deposition models applied to field measurements in the Southern Bight of the North Sea

H. Hovarth and A. Trier	371	A study of the aerosol of Santiago de Chile—I. Light extinction coefficients
A. Trier and H. Horvath	385	A study of the aerosol of Santiago de Chile—II. Mass extinction coefficients, visibilities and Ångström exponents
J. L. Ortiz, N. Apablaza, C. Campos, S. Zolezzi and M. Préndez	397	Tropospheric aerosols above the thermal inversion layer of Santiago, Chile: size distribution of elemental concentrations
C. M. Romo-Kröger and F. Llona	401	A case of atmospheric contamination at the slopes of the Los Andes mountain range
L. G. Ruiz-Suárez, T. Castro, B. Mar, M. E. Ruiz-Santoyo and X. Cruz	405	Do we need an <i>ad hoc</i> chemical mechanism for Mexico City's photochemical smog?
J. C. Ruiz-Suárez, L. G. Ruiz-Suárez, C. Gay, T. Castro, M. Montero, S. Eidels-Dubovoi and A. Muhlia	427	Photolytic rates for NO <sub>2</sub> , O <sub>3</sub> and HCHO in the atmosphere of Mexico City
E. Serrano, M. Castro and A. Macías	431	An improved direct method of rubber cracking analysis for estimating 24-hour ozone levels
P. Avila, C. Barthelemy, A. Bahamonde and J. Blanco	443	Catalyst for NO <sub>x</sub> removal in nitric-acid plant gaseous effluents
J. L. Labajo, F. De Pablo and E. García Díez	449	A temperature calculation model: the case of minimum daily temperature
J. Seco, A. Calvo, M. Egido and A. Egido	457	Solar radiation and air temperature: a study of Santiago de Chile and Salamanca
<i>Extended Abstract</i> M. Fiebig-Wittmaack and W. Börsch-Supan	463	Numerical aspects of a two-dimensional model of the global transport of atmospheric gases
<i>News and Opinions</i> Introduction	465	
Calendar	465	

## Number 4

I. N. Tang and H. R. Munkelwitz	467	Composition and temperature dependence of the deliquescence properties of hygroscopic aerosols
M. B. Richman and S. J. Vermette	475	The use of Procrustes Target Analysis to discriminate dominant source regions of fine sulfur in the western U.S.A.
D. Grosjean and A. Bytnerowicz	483	Nitrogenous air pollutants at a southern California mountain forest smog receptor site
D. R. Matt and T. P. Meyers	493	On the use of the inferential technique to estimate dry deposition of SO <sub>2</sub>
A. Bott and G. R. Carmichael	503	Multiphase chemistry in a microphysical radiation fog model—a numerical study
C. K. Li and R. M. Kamens	523	The use of polycyclic aromatic hydrocarbons as source signatures in receptor modeling

D. R. Hastie, P. B. Shepson, S. Sharma and H. I. Schiff	533	The influence of the nocturnal boundary layer on secondary trace species in the atmosphere at Dorset, Ontario
H. S. Lee, R. A. Wadden and P. A. Scheff	543	Measurement and evaluation of acid air pollutants in Chicago using an annular denuder system
A. Lopez, J. Fontan and A. Minga	555	Analysis of atmospheric ozone measurements over a pine forest
T. Gotoh	565	Estimation of pollutant concentrations in the atmosphere by measuring corrosion rates of several metals—I. Correlation between reflectance of each exposed metal and elongation of exposed rubber up to the break point
P. Bange	573	Hidden photostationary equilibrium: a case study on the effect of monitor averaging on the calculated oxidation rate of NO to NO <sub>2</sub> in the plume of a power plant
M. K. W. Ko, N. D. Sze, G. Molnar and M. J. Prather	581	Global warming from chlorofluorocarbons and their alternatives: time scales of chemistry and climate
B. W. Alton, G. A. Davidson and P. R. Slawson	589	Comparison of measurements and integral model predictions of hot water plume behaviour in a crossflow
S. Kutsuna, Y. Ebihara, K. Nakamura and T. Ibusuki	599	Heterogeneous photochemical reactions between volatile chlorinated hydrocarbons (trichloroethene and tetrachloroethene) and titanium dioxide
H. Sparmacher, K. Fülber and H. Bonka	605	Below-cloud scavenging of aerosol particles: particle-bound radionuclides—experimental
P. Hurley and W. Physick	619	A skewed homogeneous Lagrangian particle model for convective conditions
<i>Technical Note</i>		
R. D. Saylor and R. I. Fernandes	625	On the parallelization of a comprehensive regional-scale air quality model
<i>News and Opinions</i>		
Introduction	633	
Calendar	633	
Announcement	634	
Book Review (D. Shooter)	635	

## Number 5

W. Ruijgrok and F. G. Römer	637	Aspects of wet, acidifying deposition in Arnhem: source regions, correlations and trends (1984–1991)
D. Havlíček, R. Přibíl and O. Školoud	655	The chemical and mineralogical composition of the water-soluble fraction of power-plant ash and its effect on the process of crystallization of water

L. Wouters, S. Hagedoren, I. Dierck, P. Artaxo and R. Van Grieken	661	Laser microprobe mass analysis of Amazon Basin aerosols
M. A. H. Eltayeb, R. E. Van Grieken, W. Maenhaut and H. J. Annegarn	669	Aerosol-soil fractionation for Namib Desert samples
N. J. Stokes, P. W. Lucas and C. N. Hewitt	679	Controlled environment fumigation chambers for the study of reactive air pollutant effects on plants
C. J. Ottley and R. M. Harrison	685	Atmospheric dry deposition flux of metallic species to the North Sea
M. P. Ligocki, L. G. Salmon, T. Fall, M. C. Jones, W. W. Nazaroff and G. R. Cass	697	Characteristics of airborne particles inside southern California museums
R. E. Davis and D. A. Gay	713	A synoptic climatological analysis of air quality in the Grand Canyon National Park
F. J. Serón Arbeloa, C. Pérez Caseiras and P. M. Latorre Andrés	729	Air quality monitoring: optimization of a network around a hypothetical potash plant in open countryside
J. D. Pleil, W. A. McClenny, M. W. Holdren, A. J. Pollack and K. D. Oliver	739	Spatially resolved monitoring for volatile organic compounds using remote sector sampling
P. B. Shepson, K. G. Anlauf, J. W. Bottenheim, H. A. Wiebe, N. Gao, K. Muthuramu and G. I. Mackay	749	Alkyl nitrates and their contribution to reactive nitrogen at a rural site in Ontario
D. Bodzek, K. Luks-Betlej and L. Warzecha	759	Determination of particle-associated polycyclic aromatic hydrocarbons in ambient air samples from the Upper Silesia region of Poland
D. Grosjean, E. Grosjean and E. L. Williams II	765	Fading of artists' colorants by a mixture of photochemical oxidants
E. Yu. Bezuglaya, A. B. Shchutskaya and I. V. Smirnova	773	Air pollution index and interpretation of measurements of toxic pollutant concen- trations
R. Bianconi and M. Tamponi	781	A mathematical model of diffusion from a steady source of short duration in a finite mixing layer
<i>Technical Note</i>		
M. T. Odman and A. G. Russell	793	A nonlinear filtering algorithm for multi- dimensional finite element pollutant advection schemes
<i>Discussion</i>		
M. E. Teske, B. Duan, W. G. Yendol and K. Mierzejewski	801	Statistical comparison of the AGDISP model with deposit data
<i>News and Opinions</i>		
Introduction	803	
Calendar	803	

## Number 6

*European Monitoring and Evaluation Program Workshop on the  
Combined Analysis of Measurements and Model Results with  
Special Emphasis on NO<sub>x</sub>/VOC/Oxidants*

D. M. Whelpdale	805	Foreword
J. Padro	807	Seasonal contrasts in modelled and observed dry deposition velocities of O <sub>3</sub> , SO <sub>2</sub> and NO <sub>2</sub> over three surfaces
N. Z. Heidam	815	Nitrogen depositions to the Baltic Sea: experimental and model estimates
K. Kemp	823	A multi-point receptor model for long-range transport over southern Scandinavia
J. Schaug, T. Iversen and U. Pedersen	831	Comparison of measurements and model results for airborne sulphur and nitrogen components with kriging
Z. Zlatev, J. Christensen and A. Eliassen	845	Studying high ozone concentrations by using the Danish Eulerian model
H. Hass, A. Ebel, H. Feldmann, H. J. Jakobs and M. Memmesheimer	867	Evaluation studies with a regional chemical transport model (EURAD) using air quality data from the EMEP monitoring network
T. Iversen	889	Modelled and measured transboundary acidifying pollution in Europe—verification and trends
D. Simpson	921	Photochemical model calculations over Europe for two extended summer periods: 1985 and 1989. Model results and comparison with observations
A. Sirois	945	Temporal variation of sulphate and nitrate concentration in precipitation in eastern North America: 1979–1990
N. C. Treloar	965	Source types in Canadian precipitation chemistry
R. L. Dennis, J. N. McHenry, W. R. Barchet, F. S. Binkowski and D. W. Byun	975	Correcting RADM's sulfate underprediction: discovery and correction of model errors and testing the corrections through comparisons against field data
J. E. Pleim and J. K. S. Ching	999	Interpretive analysis of observed and modeled mesoscale ozone photochemistry in areas with numerous point sources
A. M. Macdonald, C. M. Banic, W. R. Leitch and K. J. Puckett	1019	Evaluation of the Eulerian Acid Deposition and Oxidant Model (ADOM) with summer 1988 aircraft data
C. S. Davis	1035	Wet deposition monitoring and modelling in New Brunswick—an area dominated by wet deposition due to long-range transport
<i>News and Opinions</i>		
Introduction	1051	
Calendar	1051	

## Number 7

S. E. Pitovranov, V. V. Fedorov and L. L. Edwards	1053	Optimal sampler siting for atmospheric tracer experiments taking into account uncertainties in the wind field
T. Kitada, P. C. S. Lee and H. Ueda	1061	Numerical modeling of long-range transport of acidic species in association with meso- $\beta$ -convective-clouds across the Japan Sea resulting in acid snow over coastal Japan—I. Model description and qualitative verifications
T. Kitada and P. C. S. Lee	1077	Numerical modeling of long-range transport of acidic species in association with meso- $\beta$ -convective-clouds across the Japan Sea resulting in acid snow over coastal Japan—II. Results and discussion
J. A. Adedokun and B. Holmgren	1091	Acoustic sounder Doppler measurement of the wind fields associated with a mountain stratus transformed into a valley fog: a case study
K. E. Fekete and L. Gyenes	1099	Regional scale transport model for ammonia and ammonium
M. Schatzmann, W. H. Snyder and R. E. Lawson Jr	1105	Experiments with heavy gas jets in laminar and turbulent cross-flows
G. Zappia, C. Sabbioni and G. Gobbi	1117	Non-carbonate carbon content on black and white areas of damaged stone monuments
R. Sequeira	1123	On the mass-transfer of major salt constituents from sea water to atmospheric precipitation
J.-M. Lin, G.-C. Fang, T. M. Holsen and K. E. Noll	1131	A comparison of dry deposition modeled from size distribution data and measured with a smooth surface for total particle mass, lead and calcium in Chicago
J. F. Pankow	1139	A simple box model for the annual cycle of partitioning of semi-volatile organic compounds between the atmosphere and the Earth's surface
J. W. Erisman, A. H. Versluis, T. A. J. W. Verplanke, D. de Haan, D. Anink, B. G. van Elzakker, M. G. Mennen and R. M. van Aalst	1153	Monitoring the dry deposition of SO <sub>2</sub> in the Netherlands: results for grassland and heather vegetation
Corrigendum	1163	
<i>News and Opinions</i> Introduction	1165	
Calendar	1165	

## Number 8

*Fourth International Conference on Carbonaceous Particles in the Atmosphere*

H. Puxbaum and T. Novakov	1167	Introduction
---------------------------	------	--------------

P. J. Sheridan, R. C. Schnell, J. D. Kahl, J. F. Boatman and D. M. Garvey	1169	Microanalysis of the aerosol collected over south-central New Mexico during the ALIVE field experiment, May–December 1989
J. C. Chow, J. G. Watson, L. C. Pritchett, W. R. Pierson, C. A. Frazier and R. G. Purcell	1185	The DRI thermal/optical reflectance carbon analysis system: description, evaluation and applications in U.S. air quality studies
C. Lioussé, H. Cachier and S. G. Jennings	1203	Optical and thermal measurements of black carbon aerosol content in different environments: variation of the specific attenuation cross-section, sigma ( $\sigma$ )
D. J. Eatough, A. Wadsworth, D. A. Eatough, J. W. Crawford, L. D. Hansen and E. A. Lewis	1213	A multiple-system, multi-channel diffusion denuder sampler for the determination of fine-particulate organic material in the atmosphere
K. Ruoss, R. Dlugi, C. Weigl and G. Hänel	1221	Intercomparison of different aethalometers with an absorption technique: laboratory calibrations and field measurements
S. G. Jennings, F. M. McGovern and W. F. Cooke	1229	Carbon mass concentration measurements at Mace Head, on the west coast of Ireland
E. Schultz	1241	Size-fractionated measurement of coarse black carbon particles in deposition samples
A. Leonardi, H. Burtscher and H. C. Siegmann	1251	Size-dependent measurement of aerosol photoemission from particles in diesel exhaust
H. Burtscher, D. Matter and H. C. Siegmann	1255	Measurement of size distribution and photo-electric activity of particles in a gas diffusion flame
P. Ciccioli, A. Cecinato, R. Cabella, E. Brancaleoni and P. Buttini	1261	The contribution of gas-phase reactions to the nitroarene fraction of molecular weight 247 present in carbon particles sampled in an urban area of northern Italy
C. Helsper, W. Mölter, F. Löffler, C. Wadenpohl, S. Kaufmann and G. Wenninger	1271	Investigations of a new aerosol generator for the production of carbon aggregate particles
J. E. Penner, H. Eddleman and T. Novakov	1277	Towards the development of a global inventory for black carbon emissions
J. A. Rau and M. A. K. Khalil	1297	Anthropogenic contributions to the carbonaceous content of aerosols over the Pacific Ocean
W. F. Rogge, M. A. Mazurek, L. M. Hildemann, G. R. Cass and B. R. T. Simoneit	1309	Quantification of urban organic aerosols at a molecular level: identification, abundance and seasonal variation
C. Sabbioni and G. Zappia	1331	Characterization of particles emitted by domestic heating units fueled by distilled oil
T. V. Nunes and C. A. Pio	1339	Carbonaceous aerosols in industrial and coastal atmospheres
M. Bizjak, R. Cigler, A. D. A. Hansen and V. Hudnik	1347	Diurnal concentrations of black carbon and some other air pollutants in Ljubljana, Slovenia

Y. J. Kim, J. F. Boatman, R. L. Gunter, D. L. Wellman and S. W. Wilkison	1351	Vertical distribution of atmospheric aerosol size distribution over south-central New Mexico
R. L. Gunter, A. D. A. Hansen, J. F. Boatman, B. A. Bodhaine, R. C. Schnell and D. M. Garvey	1363	Airborne measurements of aerosol optical properties over south-central New Mexico
R. S. Hamilton and T. A. Mansfield	1369	The soiling of materials in the ambient atmosphere
J. P. Lodge Jr	1375	Summary Lecture
<i>News and Opinions</i> Introduction	1377	
Calendar	1377	

## Number 9

J.-P. Tuovinen, T. Laurila, H. Lättilä, A. Ryaboshapko, P. Brukhanov and S. Korolev	1379	Impact of the sulphur dioxide sources in the Kola Peninsula on air quality in northernmost Europe
P. G. Simmonds, D. M. Cunbold, G. J. Dollard, T. J. Davies, A. McCulloch and R. G. Derwent	1397	Evidence of the phase-out of CFC use in Europe over the period 1987-1990
I. Grgić, V. Hudnik, M. Bizjak and J. Levec	1409	Aqueous S(IV) oxidation—III. Catalytic effect of soot particles
J. L. Gras	1417	Condensation nucleus size distribution at Mawson, Antarctica: seasonal cycle
J. L. Gras	1427	Condensation nucleus size distribution at Mawson, Antarctica: microphysics and chemistry
